

Standard PTO Drive Shafts

Perfect for applications such as rotary cutters, fertilizer spreaders, tillers and more. The Standard PTO is the perfect, ready-to-install solution.

A Standard drive shaft is perfect for equipment that doesn't need more than 80 HP. Created for the value-conscious equipment owner that only needs the essentials, this drive shaft is comprised of quality components that are meant to be used occasionally.

Standard Features & Benefits:

- Meets the ASABE and CEN safety requirements.
- Universal joint has easy to locate and access grease fitting.
- Durable profile telescoping transmits the right amount of torque.
- Spring-loaded collar attaches and releases the yoke.
- Provides up to 80 HP @ 540 RPM for projects that are used occasionally.
- Optional addition of a friction or shear bolt torque limiter.
